■ ***OSHA Injury and Illness Recordkeeping Index***

A keyword index of terms used in 1904 – the OSHA injury and illness recordkeeping standard. Click on a term or keyword and all of OSHA's interpretations on this subject from the standard, the preamble, the Frequently Asked Questions, the CPL, and oral and email interpretations that CTJ has received from Federal OSHA will appear. You will receive an initial CD ROM, an updated CD at 6 months, and email interpretations between those periods. Please see our Web site for a sample of this Index.

PRICE: \$149

■ ***OSHA Requirements Checklist Manual***

This manual contains checklists for standards that require:

- Training in 1910
- Inspections in 1910
- Written Policies in 1910
- Medical Surveillance in 1910
- Records in 1926
- Records Implied in 1926
- Training in 1926
- Inspections in 1926
- Posting and Labeling in 1910
- Records in 1910
- Records Implied in 1910
- Competent Persons in 1910 and 1926

PRICE: \$75 per year

Provided on CD or via email. Updated annually.

■ ***Compliance Audit Procedures***

33 protocols with a step-by-step method to audit compliance with OSHA requirements. What documents to examine, what interviews to conduct, what to look for. 50 pages.

PRICE: \$49 Provided on CD or via email.

■ ***Guide to Machine Guarding of Machine Shop and Maintenance Shop Machines***

This guide provides pictures and sketches on how to safeguard and meet OSHA's requirements for typical machinery found in a maintenance or machine shop. The manual includes machines such as drill presses, hydraulic presses, lathes, shears, roll formers, press brakes, woodworking machines and grinders. 75 pages.

PRICE: \$79

■ ***Guide to OSHA Recordkeeping***

This guide includes CTJ's OSHA Recordkeeping Interpretative Review –a copy of the new OSHA Recordkeeping Standard plus interpretations from the standard's preamble, the CPL, the FAQ's and emails that we have received from Federal OSHA. It also includes the new forms, exercises, flow charts and a comparison chart of the old versus the new standard. 100 pages.

PRICE: \$45 Provided on CD or via email.

■ ***Managing Safety and Health Systems: The CTJ System***

CTJ Safety Associates, LLC, has installed a Facility Safety and Health Management System in over 700 plants in North and South America and Europe during the past 24 years. Our two-volume set will guide you if you choose to install this system yourself. Volume I is the safety and health manager's manual. Volume II includes eight manuals for each of the task groups that make up the system including:

- Promoting Safety and Health
- Rules and Procedures
- Inspections and Audits
- Housekeeping
- Fire and Emergency
- Education and Training
- Health and Environment
- Incident Investigation

PRICE: \$79 Provided on CD or via email.

■ ***Written Fill-In-The-Blank Safety and Health Policies for Medical Clinics***

Medical clinics and similar facilities are required to comply with OSHA's standards. That means there are a number of written policies that must be developed and implemented. We've done most of the work for you by developing the fill-in-the-blank policies that you will need. These policies include:

- Access to Exposure and Medical Records
- Bloodborne Pathogens
- Chemical Hygiene Plan
- Electrical Safety
- Emergency Evacuation and Actions
- Fire Prevention
- Hazard Communication
- Personal Protective Equipment
- Compressed Gas Handling and Use

PRICE: \$79

These policies may also be purchased individually. Contact CTJ for individual policy prices. Provided on CD or via email.
